## Hermon&Hermon Introduces Kenneth Cobonpue

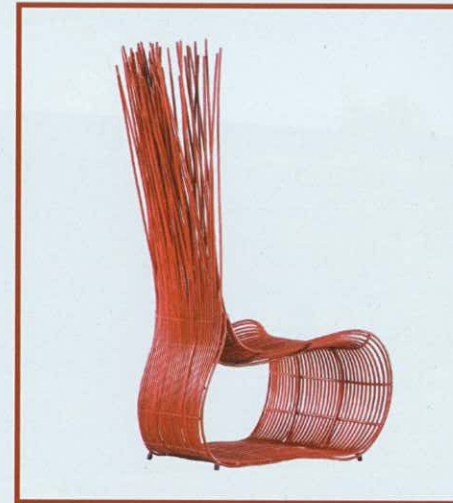

Kenneth's striking handcrafted pieces are showcased in world-renowned Nobu restaurants, in the movie "Oceans Thirteen", and in hotels from Beverly Hills to London and Dubai. He has also been recognized

internationally with awards for design excellence as well as his inclusion in the prestigious International Design Yearbook.

Time Magazine credited Kenneth as being rattan's "first great virtuoso".

Sexy and curvaceous, Kenneth Cobonpue's works are accessible, sculptural and classically modern. Combining the use of contemporary design with traditional methods and crafts, each year he creates a distinct collection that uses natural rattan in surprising new forms.

Hermon & Hermon have been selling the range for the past 6 years but now have a section devoted to Kenneth Cobonpue in-store.

"Each piece I design has character and soul born from the inspiration and design process" says Cobonpue

To see the collection in person, visit Hermon&Hermon @ 556 Swan St Richmond (03) 9427 0599
